

**7 41 RUPERT RD**

Lucy Kitto & Paul Carnell.

Veg, greenhouse, flowers, compost, pottery studio, art, tea and cake and chickens that do gymnastics.

*We've been gardening at 41 Rupert Road for around 15 years. We wanted to create a garden that was full of colour, vegetables, chickens, ponds, wildlife and that provided us with a beautiful place for family and friends to relax in. Paul has built several constructions over the years: a play house, a summer house, a shed or two and a beautiful studio for me to make pottery in. We grow a lot of fruit and vegetables and have a busy greenhouse. We garden organically and our keen composters.*

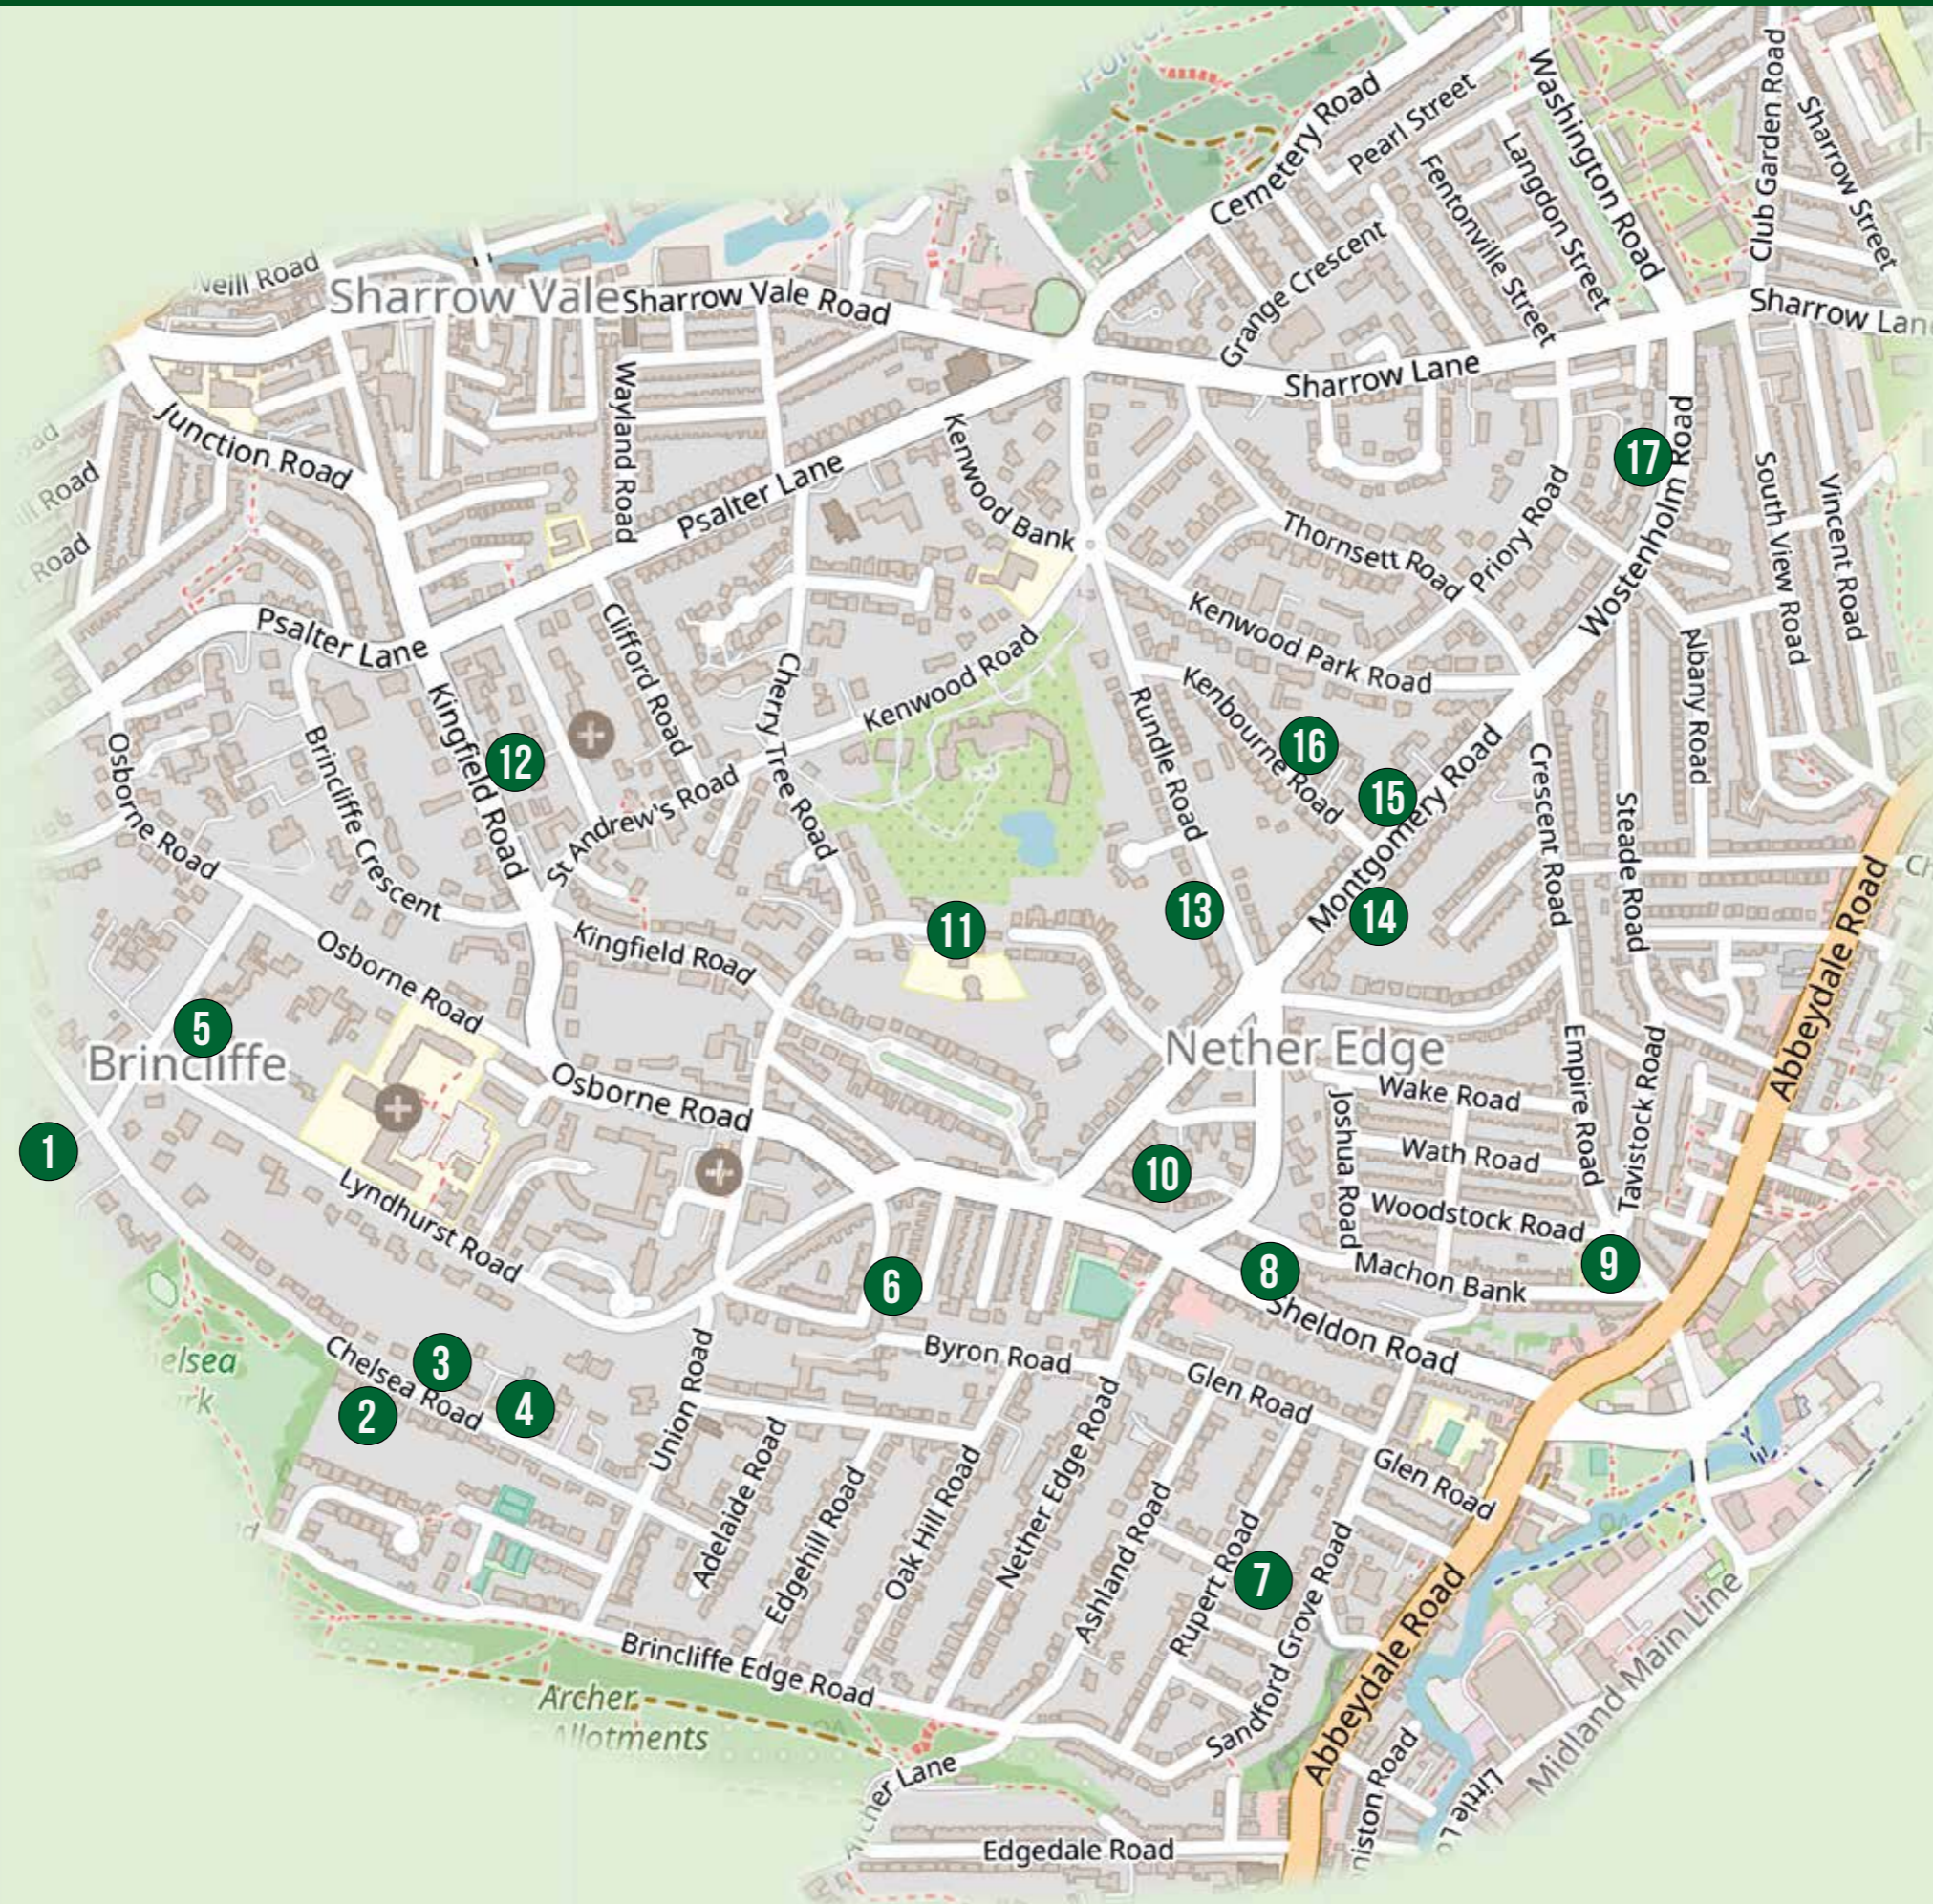

*We love sharing our garden with others.*

Lots of rare and unusual garden plants in this very new communal garden around a small 1930s complex. Designed to complement the architecture and still very much a work in progress. A dozen small trees and choices made to be pollinator and insect friendly. The plants-woman will be there to answer questions.
